Shepherds Bush Road, Hammersmith, London, W6

Project Manager: Paul Sanders Consulting
Architect: ColladoCollins Architects

This former Ford Motor Company building is being adapted to include three additional floors which will be housed under a glass dome. Once completed, the Grade II listed building will provide over 115,000 sq. ft. of office space across six floors and enhance the skyline by day and night.

Knights Park, Royal Tunbridge Wells, Kent

Client: Invertay Limited

Contractor: Dandara Limited

Master Planners/Architects: John Thompson & Partners Limited

A large mixed-use development on the outskirts of this historic spa town. The 220 acre site is surrounded Ancient Woodland. Phase 1 comprises 160 flats, 140 houses, commercial units and a primary school. The properties range from 1 bedroom apartments to 5 bedroom houses.

Holborough Lakes, Manley Boulevard, Holborough, Kent

Client/Principal Contractor: Berkeley Homes Limited
Architects: CHBC Architects

The demolition of the existing decked parking structure and a four storey former Police Station to enable the construction of a multi-storey residential-led mixed use development which includes 83 (43no. 1 bed, 40no. 2 bed) apartments. Also a number of new affordable homes. Plus a retail unit and a health and wellbeing centre.

Hammersley Road, Canning Town, London, E16 1FY

Client: Affinity Sutton Professional Services Limited

Developer: Countryside Properties Limited

Architect: Shephard Epstein Hunter

At the forefront of Canning Town's urban renewal, East City Point offers a selection of stylish 1 and 2 bedroom apartments, 2 and 3 bedroom überhaus, 1 and 2 bedroom penthouses and 3 and 4 bedroom houses.

South Bridge and Cowgate, Edinburgh

Client: Soco (Edinburgh) Limited

Project Manager: Cyril Sweett Limited

Architect: ICA Architects

A new mixed-use development in the heart of the old town. The scheme comprises a 259 bed hotel, double-height frontage retail units and night club.

The Naim Dangoor Centre, Westminster Academy, London

Client: Westminster academy

Architect: Allford Monaghan Morris

Principal Contractor: Galliford Try Plc

The overall scheme entails repair works to the existing atrium roof baffles. The works involve the installation of scaffold bird cage within the atrium area to enable initially access to inspect and investigate the baffle fixing failures. The scaffold bird cage will provide access for the eventual replacement of damaged baffles and replacement fixings.

Colindale Avenue, The Hyde, London, NW9

Client: SEMALI Investment Limited

Lead Designer: Contemporary Design Solutions

Principal Contractor: Designated Contractors Limited

This eighteen story scheme comprises a 374 bedroom apartment/hotel with a club, restaurant, gym and four commercial units on the ground floor with associated landscaping and parking.

Basingstoke Road, Reading, Berkshire

Client: Manor View Properties Limited

Architect: Hives Architects

Structural Engineer: Manhire Associates

The layout comprises two new buildings: Block A is designed to be a supermarket, covering an area of 1,590 sq. m., containing sales and storage areas together with ancillary offices and welfare facilities for the staff. Block B will be a gymnasium, public house and restaurant.

Voyager House, Poole, Dorset

Client: Edgewater (Poole) Limited

Architect: Oaten Architects

Principal Contractor: GPS Projects

The overall scheme entails the conversion of an existing 3 and 4 storey building. The ground floor comprises a reception, a vacant shop and a large undercroft parking area and office accommodation. Conversion of the upper three floors into 45 flats of fifteen flats per floor with little structural alteration works. The front windows are to be replaced and the undercroft reinsulated and the rear main drain run replaced.
